

Boomi Proof of Value

Validate ideas, reduce risk, and accelerate proof of value with Boomi.

Enterprises are under pressure to innovate faster but many remain tied to complex, expensive API management platforms that limit agility and slow transformation. Boomi's low-code platform simplifies integration and modernisation, with Master Data Management providing a unified, trusted view of data. Still, uncertainty about where to begin, and concern over making irreversible decisions, often leads to hesitation and overcommitment before the right path is proven.

What is this offer about?

A focused, low-risk approach is essential to validate ideas and build certainty before scaling transformation. *Adaptiv's Boomi Proof of Value* engagements deliver confidence, demonstrating how a modern, cloud-native integration platform can simplify complexity and reduce cost without sacrificing performance. As a certified Boomi Platinum Partner, we help you quantify impact, validate efficiency gains, and define a clear path to a more agile, cost-effective integration landscape.

Ideal Customer Profile

The Boomi PoV is ideal for organisations that are currently;

- ▶ Operating systems that are expensive to maintain, slow to adapt, and difficult to scale
- ▶ Needing a lightweight, flexible integration layer to connect hybrid environments seamlessly without disrupting business operations.
- ▶ Navigating integration complexity without in-house expertise and looking for trusted guidance from a certified partner with deep integration experience.
- ▶ Wanting to move faster by empowering business and IT teams to build, manage, and adapt integrations with minimal technical friction

"Adaptiv's culture of engagement and professionalism, their deep knowledge, and willingness to offer advice and beyond, have been a hallmark of our relationship over the years."

Fletcher Building Group

AT A GLANCE

TIME TO VALUE: Est. 2-3 weeks

- ▶ **Discovery Workshop and Scope Definition:**
Alignment on goals, success criteria, and measurable outcomes.
- ▶ **Boomi Architecture Design:**
Outlining the services, integration patterns, and environments required for the PoV.
- ▶ **Configured Boomi Environment:**
Setup of the necessary Boomi resources, connectivity, and security foundations.
- ▶ **Working Prototype or Solution Demo:**
A functional proof demonstrating the use case in a real-world context.
- ▶ **Performance and Testing:**
Detailed testing and analysis to validate the solution's viability.
- ▶ **Documentation and Handover:**
Including technical design, test results, and next-step recommendations.
- ▶ **Summary Presentation:**
Key findings, business insights, and roadmap to production implementation.

Adaptiv's Engagement Model

Delivering a successful Proof of Value requires structure, clarity, and alignment. At Adaptiv, our engagement model ensures every Boomi PoV is purposeful and outcome-focused.

01

DISCOVER

Discover: Define the business challenge, success measures, and scope.

02

DESIGN

Design: Translate findings into a practical PoV plan and architecture.

03

DEPLOY

Deploy: Build the proof of value in a controlled Boomi environment.

04

DELIVER

Deliver: Validate outcomes, share insights, and define the path forward.

Adaptiv provides world-class integration, consulting and execution, and data and analytics services.

Our expertise has helped some of the largest enterprises seamlessly transition to cloud or hybrid environments & integrate their systems, delivering clear and measurable value to their bottom line.
